Please visit us online for the most up-to-date hours at: IHAcares.com/urgentcare

What is Urgent Care?
Offering extended hours seven days a week including holidays, IHA Urgent Care is just what the patient ordered. No more waiting for hours in an Emergency Room, now you have a quicker, more cost-effective alternative that fits your schedule... and your budget.

We treat non-life-threatening medical conditions, such as:

- Back pain
- Cuts requiring stitches
- Conjunctivitis (pink eye)
- Fever or flu symptoms
- Fractures (broken bones)
- Headaches
- Mild to moderate allergic reactions
- Minor head injuries
- Seasonal allergies
- Sprains and strains
- Urinary tract infections (UTIs)

COVID-19 Related Symptoms at select Urgent Care locations:

- Cough
- Fever/Chills
- Shortness of Breath
- Fatigue
- Sore Throat
- Body Aches
- Nausea/Vomiting
- Pink Eye
- Loss of taste/smell
- Discolored fingers/toes
- Diarrhea
- Skin Rash

Visit IHAcares.com/covid19 for more info.

Save Your Spot
IHAcares.com/saveyourspot

Skip the wait and save your spot at our urgent care locations. Your saved spot is not a guaranteed appointment, but an option that allows you – or a sick family member – to seek care at a time that is convenient.

Senior Primary Care & Consult Services

We specialize in providing primary care to patients aged 65 and older who have a history of complex conditions that require frequent visits.

Physicians and staff provide support to aging adults and caregivers by offering a comprehensive assessment, developing a plan and making connections to local resources. Each patient completes an initial questionnaire, receives an in-depth assessment and recommendations for care or resources to enhance the quality of life.

Senior Primary Care Services Offered:

- Annual wellness checks
- Chronic care visits
- Immunizations
- Cognitive assessments
- Home visits
- Support in setting and achieving health goals
- Coordination and continuity of health care when moving from one health care setting to another

We have many providers in several of our primary care practices who can care for your child.

Urology
Our team provides full-service care to newborns through young adults. Children with a bone, muscle or joint issue deserve comprehensive treatment from experts who specialize in caring exclusively for children and their unique needs. We believe that a team-based approach to musculoskeletal health, where bone and joint specialists with different backgrounds work together, provides the optimal care for each individual patient.

Pediatric Specialties in Oakland
Trinity Health - Oakland Campus
Oakland Medical Office Building
44550 Woodward Ave.

Noelle Whyte, MD
Christiane Marshall, PA-C
John Park, MD
Julian Wan, MD

Cardiology
Pediatric Cardiology is different from the way cardiologists treat adult patients. The structure of children’s hearts is different and smaller than adults’ heart structure. Pediatric cardiologists have special training and experience treating conditions that affect the structure or rhythm of children’s hearts. Pediatric cardiologists work closely with your child’s pediatrician. They don’t do surgery.

Orthopaedics
Our team provides full-service care to newborns through young adults. Children with a bone, muscle or joint issue deserve comprehensive treatment from experts who specialize in caring exclusively for children and their unique needs. We believe that a team-based approach to musculoskeletal health, where bone and joint specialists with different backgrounds work together, provides the optimal care for each individual patient.

### Ypsilanti, MI 48197

### OB Ultrasound

We have four locations for OB (obstetric) ultrasound. OB ultrasound is located within Maternal-Fetal Medicine Arbor Park, Oakland Hospital and West Arbor. OB Ultrasound has an additional location in Obstetrics & Gynecology - Brighton. A specially trained person known as a registered diagnostic medical sonographer (RDMS) will perform the examination which will be reviewed by a physician trained in fetal imaging.
Nurse Midwives

What is Midwifery?
Women are unique in many ways, very much like our Nurse Midwives. We not only offer comprehensive prenatal and childbirth services, but also provide the entire spectrum of well-woman gynecological care. With a focus on wellness education, our midwives are committed to enhancing a woman's self-reliance and trust in her normal life process. Our practice evidence-based medicine offering comprehensive women’s health care, from preconception counseling, obstetrical and gynecologic services, normal labor management and vaginal deliveries.

SCAN HERE to meet the midwives!

Trinity Health Perinatal Wellness Center

The Trinity Health Perinatal Wellness Center is a comprehensive practice caring for women during and after their pregnancies. The Perinatal Wellness Center offers postpartum follow-up visits, perinatal mental health services, our breastfeeding medicine care and more.

Reichert Medical Center
5333 McAuley Dr., Ste. 2106, Ypsilanti, MI 48197
P: 734-213-3680  F: 734-213-3681
Angela Welton, LPC, IBCLC

Breastfeeding Medicine

Our International Board Certified Lactation Consultants (IBCLC) are board-certified providers or registered nurses who can provide you with expert care before, during and after your baby is born to ensure that you have the support and education you need to feel comfortable and confident in your decision to breastfeed. All lactation consultants provide breastfeeding support consistent with the recommendations of both the American Academy of Pediatrics, the International Board of Lactation Consultant Examiners and the Academy of Lactation Policy and Practice.

Reichert Medical Center
5333 McAuley Dr., Ste. 2106, Ypsilanti, MI 48197
P: 734-213-3680  F: 734-213-3681
Lisa A. Hammer, MD, IBCLC Beth Hoskins, LPN, IBCLC Kathryn Lankton, DO, IBCLC Emily Piniatoglou, CNP, IBCLC Nancy Dmitruchina, RN, IBCLC

Lactation consultants are available for one-on-one breastfeeding assistance. They can handle many types of breastfeeding issues including, but not limited to:

- Basic breastfeeding education
- Support and encouragement
- Help continuing with breastfeeding after returning to work or school
- Latch-on problems
- Sore nipples or engorgement
- Slow weight gain of infant
- Insufficient breast milk
- Medical conditions such as prematurity, Down syndrome, cleft lip and/or palate
- Breastfeeding multiples

Neonatology

Neonatology or neonatal medicine is a subspecialty of pediatrics the specializes in care of newborn infants, especially the seriously ill or premature newborn. Our Neonatology team is staffed by Neonatologists and Neonatal Nurse Practitioners that provide hospital based care in a Neonatal Intensive Care Unit (NICUs) or Special Care Nursery. Our providers are in the hospital and available 24 hours a day, seven days a week and provide care in children with complex needs. Our team members coordinate the involvement of other Specialist providers and Ancillary Services, communicating with patients, families and works in partnership with your primary care physician to ensure a smooth and effective follow up plan after discharge.

P: 877-336-6307 F: 734-887-8979

Pediatric Hospital Medicine

Pediatric Hospitalists are pediatricians who specialize in hospital medicine and newborn care. The pediatric hospitalists care for patients at Trinity Health Ann Arbor and Trinity Health Livonia. Our providers are available 24 hours per day, seven days a week and regularly care for hospitalized children and newborns. The Pediatric Hospitalist team is well equipped to deal with the sometimes challenging behavioral and psychological effects on children who are sick and need to be hospitalized. The team will pay special attention to communication with your child’s primary care physician, that way the transition home and any follow up care needed can be easy and effective. Our Pediatric Hospitalists understand the coordination of care for acute disorders and newborn care, and are able to diagnose and recognize unusual disorders, anticipate problems and rapidly respond to crises or changes in a patient’s condition.

Collaborative Care Behavioral Health Program

We work with patients who may have anxiety and/or depression – right here in your physician’s office! Our team is made up of a behavioral health specialist, your physician and a psychiatrist who talks with your doctor and behavioral health specialist. We all work together to help improve your overall well-being. In this program, the behavioral health specialist works with you to build skills and techniques to better manage your depression and/or anxiety. If you are interested in using medication to help control your symptoms, our team psychiatrist will talk to your behavioral health specialist and your physician to figure out the best treatment options.

Behavioral Health Program

- A behavioral health specialist will work with you for 3-6 months offering brief behavioral interventions
- They will check in often with you over the phone or at your physician’s office
- A psychiatrist consults with your behavioral health specialist and your primary care physician to help determine treatment options
- Your behavioral health specialist only works with patients experiencing depression and anxiety

Pediatric Behavioral Health Care

The IHA Medical Group Pediatric Behavioral Health Care team empowers children and their families to cope with behavioral issues and challenges so they can work toward healthy family growth.

Behaviors addressed include:

- Depression or anxiety
- Behavior concerns disruptive to school or home life
- Sleep issues
- Coping with stressful events such as illness, death in the family, starting or changing schools
- Problems with friends or bullying
- Divorce or remarriage
- Post-traumatic experiences

Working together:

- We work in collaboration with your child’s physician to improve your child’s or adolescent’s overall health
- We help the family to more fully understand the nature of a child or adolescent’s behavior and provide the tools to help them successfully navigate whatever challenges they are facing
- We will assess the most effective strategies for helping your child or adolescent and provide an opportunity for parents to clarify their own feelings
- We provide education and strategies to parents to empower families
What is Care Management?

At Trinity Health IHA Medical Group, Care Management works with patients who have moderate to complex illnesses. Located in your primary care practice, the care manager works in collaboration with your primary care physician and medical team to improve your overall health. The care manager works with you to assess and proactively manage your health, helping you to identify areas that you would like to improve or better manage.

Together you will work to build skills and techniques to better manage your health care conditions. Your care manager will help you set obtainable goals that are realistic, help you to identify solutions to overcome barriers and provide ongoing support and encouragement. This is a personalized service based on your needs. The care manager will call and meet with you regularly in your physician’s office when it is convenient for you.

Nutrition Services

Our nutrition specialists offer nutrition counseling services at many locations. Their expertise can provide you with the necessary knowledge to achieve all of your individual and family dietary needs.

- One-on-one nutrition counseling
- Easy to follow, customized eating plans to achieve/maintain a healthy weight
- Prevention/management of chronic disease through dietary and lifestyle changes
- Guidance in managing nutrition science to form healthy habits that will help you look and feel better
- Assistance with all of the misinformation about food and nutrition
- Weight management programs
- A healing approach to treating diagnosed medical conditions and their associated symptoms

Women’s Behavioral Health Care

The Women’s Behavioral Health Care team empowers women ages 16 years and older to cope with issues and challenges so they can work toward healthy growth.

Psychotherapy services are available for the following areas:

- Preconception health and wellness
- Mood and anxiety concerns (depression, anxiety, posttraumatic stress disorder, and/or panic attacks)
- Sexual assault
- Domestic abuse
- Unresolved trauma (history of childhood physical, emotional, and sexual abuse, as well as neglect)
- Infertility, pregnancy loss and adoption
- Marriage or relationship concerns
- Parenting concerns
- Self-esteem problems
- Stress reduction and management in work and life
- Grief and loss issues
