What is Urgent Care?

Offering extended hours seven days a week including holidays, IHA Urgent Care is just what the patient ordered. No more waiting for hours in an Emergency Room, now you have a quicker, more cost-effective alternative that fits your schedule... and your budget.

We treat non-life-threatening medical conditions, such as:

- Abdominal pain (non-severe)
- Headaches
- Acute back pain and neck pain
- Colds, coughs and flu symptoms
- Cuts requiring stitches
- Conjunctivitis (pink eye)
- Sports physicals
- Flu shots
- Sore throats, ear infections and sinus infections
- Seasonal allergies
- Skin rashes
- Bumps, cuts, sprains and strains
- Most fracture care, including splinting and bracing
- Imaging
- Minor eye problems
- Minor procedures, including laceration repair
- Minor head injuries
- Mild to moderate allergic reactions
- Mild to moderate asthma
- Urinary tract infections (UTIs)

Save Your Spot

Trinity Health IHA Medical Group

Comprehensive Geriatric Primary Care

We specialize in providing primary care to patients aged 65 and older who have a history of complex conditions that require frequent visits.

Physicians and staff provide support to aging adults and caregivers by offering a comprehensive assessment, developing a plan and making connections to local resources. Each patient completes an initial questionnaire, receives an in-depth assessment and recommendations for care or resources to enhance the quality of life.

Services Offered:

- Annual wellness checks
- Chronic care visits
- Immunizations
- Cognitive assessments
- Support in setting and achieving health goals
- Coordination and continuity of health care when moving from one health care setting to another

OB Ultrasound

We have six locations for OB (obstetric) ultrasound. OB ultrasound is located within Maternal-Fetal Medicine Arbor Park, Oakland Campus and West Arbor, as well as Trinity Health Ann Arbor and Trinity Health Livonia. OB Ultrasound has an additional location in Obstetrics & Gynecology - Genoa. A specially trained person known as a registered diagnostic medical sonographer (RDMS) will perform the examination which will be reviewed by a physician trained in fetal imaging.

Centering Pregnancy

Join other expectant moms who have the same questions you do. CenteringPregnancy® is prenatal care that includes your regular health check-up with additional group time for learning and sharing.

Urogynecology and Reconstructive Pelvic Surgery

P: 734-838-5084
F: 734-838-5085

Urogynecology and Reconstructive Pelvic Surgery is a subspecialty of obstetrics and gynecology that focuses specifically on treating women with pelvic floor disorders, including pelvic organ prolapse, urinary or fecal incontinence, and overactive bladder. These disorders are treated through a combination of both surgical and non-surgical methods with the goal of enhancing the quality of life for affected women. Obstetrician/gynecologists undergo additional fellowship training in this subspecialty.

Trinity Health Perinatal Wellness Center & Breastfeeding Medicine

The Trinity Health Perinatal Wellness Center is a comprehensive practice caring for women during and after their pregnancies. Our International Board Certified Lactation Consultants (IBCLC) are board-certified providers or registered nurses who can provide you with expert care before, during and after your baby is born to ensure that you have the support and education you need to feel comfortable and confident in your decision to breastfeed. All lactation consultants provide breastfeeding support consistent with the recommendations of both the American Academy of Pediatrics, the International Board of Lactation Consultant Examiners and the Academy of Lactation Policy and Practice.

What is Internal Medicine/Pediatrics?

With a focus on lifelong preventive health care and overall well-being, our internal medicine and pediatric physicians and staff specialize in primary care for infants, children and adults. Internal Medicine/Pediatrics, sometimes called Med-Peds, is the combination of Internal Medicine (primary care for adults) and Pediatrics (primary care for infants, children and adolescents). Physicians receive an additional year of training and are board-certified in both internal medicine and pediatrics.

Cardiology

Suite 105

Clinton Cochran, MD
Daniel Turner, MD

Pediatric Cardiology is different from the way cardiologists treat adult patients. The structure of children's hearts is different and smaller than adults' heart structure. Pediatric cardiologists have special training and experience treating conditions that affect the structure or rhythm of children's hearts. Pediatric cardiologists work closely with your child's pediatrician. They don't do surgery.

Gastroenterology

Suite 505

Shuemein Julia Mar, MD

This clinic offers diagnosis and treatment of a variety of gastrointestinal diseases including inflammatory bowel disease, celiac disease, eosinophilic esophagitis, irritable bowel syndrome, gastroesophageal reflux disease (GERD), constipation, functional abdominal pain and functional dyspepsia. We also offer diagnostic upper endoscopies and colonoscopies.

Hematology Oncology

Suite 505

Jennifer Blase, MD, PhD
Kelley Ellis, CNP

This clinic offers comprehensive care for pediatric cancers and blood disorders. Specifically, we offer both outpatient clinic appointments and infusion services for chemotherapy, blood products, and treatments for immune deficiencies.

Ophthalmology

Suite 405

Christopher Gappy, MD
Breanna Tracey, MD

Our clinic offers primary care of common children's eye problems as well as comprehensive evaluations and follow-up for children with simple or complex eye and vision disorders. We provide short-term treatment of immediate problems, as well as long-term rehabilitative care and monitoring of visual development in children and adolescents.

Orthopaedics

Suite 505

Kristina Sinacori Walick, MD
Olivia Mears, PA

Our team provides full-service care to newborns through young adults. Children with a bone, muscle or joint issue deserve comprehensive treatment from experts who specialize in caring exclusively for children and their unique needs. We believe that a team-based approach to musculoskeletal health, where bone and joint specialists with different backgrounds work together, provides the optimal care for each individual patient.

What is Care Management?

At Trinity Health IHA Medical Group, Care Management works with patients who have moderate to complex illnesses. Located in your primary care practice, the care manager works in collaboration with your primary care physician and medical team to improve your overall health. The care manager works with you to assess and proactively manage your health, helping you to identify areas that you would like to improve or better manage.

Nutrition Services

Our nutrition specialists offer nutrition counseling services at many locations. Their expertise can provide you with the necessary knowledge to achieve all of your individual and family dietary needs.

- One-on-one nutrition counseling
- Easy to follow, customized eating plans to achieve/maintain a healthy weight
- Prevention/management of chronic disease through dietary and lifestyle changes
- Weight management programs
- Guidance in managing nutrition science to form healthy habits that will help you look and feel better
- A healing approach to treating diagnosed medical conditions and their associated symptoms

Trinity Health Academic Practices

Our team of faculty and resident physicians provide the most up-to-date, evidence-based medical care in a caring, compassionate environment. Working closely with each of our patients, we develop personalized care plans with a special emphasis on preventive care so that, in addition to helping you with health concerns, we can work with you to avoid ones that may come up in the future.

Before you go to the ER, **Call your doctor's office or 844-IHA-DOCS (3627) first!**

You can call us 24 hours a day, 7 days a week!

We now have extended weekend and evening hours at many of our locations.

Our nurses are available 24/7 to help you choose the right place for care. If needed, they can also connect with a doctor. Choosing the right care can save you time and money. Use the guide below to know when to call your doctor's office, visit Urgent Care, or go to the Emergency Room.

PRIMARY CARE

Best for everyday health concerns and non-emergency care. Call us first!

- Allergies

- Stroke Symptoms (Sudden Weakness, Dizziness or Speech Problems)

You should follow-up with your primary care doctor after a visit to an emergency room.

Mental Health, Behavioral Health and Substance Use Services

Contact Us in Crisis

If you or someone you know is facing a mental health crisis, please call **988** or text "home" to **741741** to access the Michigan Suicide and Crisis Lifeline.

Your Path to Healing

Are mental or behavioral health challenges holding you back? Are substance use issues interfering with your life? You are not alone, and the path to recovery starts at **Trinity Health IHA Medical Group**. Our dedicated team offers both **outpatient and inpatient care** in a supportive, nonjudgmental environment tailored to your needs.

Services Offered

Anxiety & Depression Help Via Our Collaborative Care Model

Collaborative Care is a type of Behavioral Health care that is embedded within your physician's office. Services include:

- A treatment team that includes you, your physician, a Behavioral Health Specialist and a consulting psychiatrist.
- A short-term, targeted treatment plan to help with managing symptoms related to anxiety or depression.
- Regular contact with your assigned Behavioral Health Specialist to talk about how you're doing, provide tools and help you achieve your goals.

Outpatient Mental Health Services

Our outpatient programs offer support for children, adults, and families dealing with various mental health challenges, including but not limited to:

- Anxiety
- Depression
- Mood disorders
- Schizophrenia
- Bipolar Disorder

We provide:

- Psychiatry
- Counseling
- Individual and group therapy
- Psychological testing

Partial Hospitalization Programs (PHP)

Designed for those needing intensive therapy without full hospitalization, PHP supports:

- Adolescents (12+) and Adults (18+)
- Patients with severe mental health concerns who need daily structured care
- The program is 6 hours a day, 5 days a week, with individual, group and family therapy, as well as psychiatry services and medication management

Intensive Outpatient Programs (IOP)

Targeted for Adolescents (12+) and Adults (18 +) who manage daily responsibilities but need additional support, the IOP includes:

- Group, individual, and family therapy
- Flexible sessions for developing coping strategies
- Psychiatry services and medication management
- The program is 3 hours a day, 3 days a week

Addiction Recovery Services

We offer comprehensive recovery services for individuals facing challenges related to:

- Alcohol
- Opioids
- Prescription drugs
- Other substances
- The program offers intensive outpatient group and individual therapy
- Medication management related to addiction counter measures
